

- Pedestrian movements grade separated from MD 355 traffic
- Enhanced sidewalk into Navy gate area
- Access to crossing for MD 355 pedestrians remains at the same grade as today
- Improved emergency vehicle access between campuses
- Potential traffic operations enhancements
- Improved access to Visitors Center from northbound MD 355
- Structure provides some additional queuing storage for security gate operations
- Pedestrians and turning vehicles still conflict at signals
- Construction footprint may conflict with planned improvements to Cedar Lane and Jones Bridge Road
- Extensive construction impacts
- Would need temporary roadway and guard shack
- Extensive temporary roadway impacts
- Reconstruction of access to NIH Visitor Parking / Processing Area
- Traffic heading south from NIH and NNMCC prevented from turning left onto Jones Bridge Road

An aerial photograph of a suburban area featuring a large green lawn, a paved road, and a parking lot. A yellow text overlay with a black outline reads "Glenbrook Parkway" diagonally across the lower portion of the image.
